ABB monitoring and communications

VSN700 Data Logger VSN700-01/ VSN700-03/VSN700-05

The high-performance VSN700 Data Logger provides simple and quick commissioning with device discovery and automatic IP addressing as well as remote management features.

01 VSN700 Data Logger

01

This SunSpec compliant datalogger records data and events from inverters, energy meters, weather stations, and other photovoltaic plant devices, and acts as an Internet gateway to send the data securely and reliably to the Aurora Vision® Plant Management Platform for performance monitoring, condition monitoring and data reporting.

Three performance levels

The VSN700 Data Logger is available in three performance levels to fit anyone's budget and functionality:

VSN700-01 Data Logger is available to those residential customers who only need to monitor up to five (5) singlephase inverters.

VSN700-03 Data Logger is a cost-optimized logger for small commercial installations with up to ten (10) single and three-phase string inverters and one weather station (VSN800 Weather Station).

VSN700-05 Data Logger provides both customer data management and inverter command and control for commercial and utility PV system operation, as well as SCADA integration.

Highlights

All VSN700 Data Logger models include:

- Data management system with serial and Ethernet ports for data and event logging
- Quick installation and fast plug and play commissioning with device discovery mechanism
- Network Provisioning with dynamic IP addressing (DHCP client and server)
- Reliable and secure transmission of operational data to Aurora Vision® Plant Management Platform
- Remote configuration and management capabilities, including firmware upgrades over the Internet using Plant Portfolio Manager
- Simple end-user UI using Plant Viewer

VSN700-05 Data Logger (Max) includes the following additional functionalities:

- No software limitation on number of devices logged
- Modbus TCP server using SunSpec compliant Modbus maps for easy SCADA system integration, data collection, and inverter command execution
- Support for most ABB inverters, meters, smart combiners and weather stations (see VSN700 Data Logger model comparison table)

ABB monitoring and communications VSN700 Data Logger

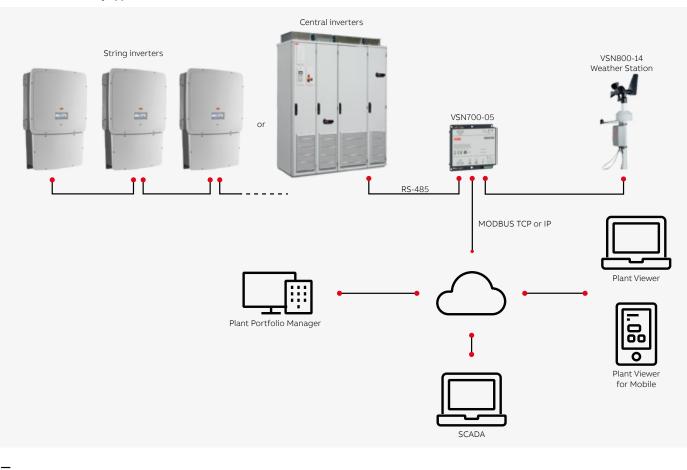

Technical data and types

Type code	VSN700 Data Logger		
Communication interfaces			
Serial port interface	(2) RS-485 + (2) RS-23		
Maximum devices per serial port	Physical limitation of 32 (reduced by poll rate, inverter data set size and logger type		
Fieldbus cable	RS-485 Shielded Twisted Pair. Recommend Belden # 1120A cable or # 3106A for 3 conducto		
Ethernet port 0	Firewall protected Ethernet WAN port for Internet connection		
Ethernet port 1	Local LAN with static IP addres		
Ethernet connections	RJ-45 Ethernet 10/100 base-T (LAN/WAN		
Communication protocols			
Plant fieldbus protocols	Aurora Protocol, Modbus RTU (SunSpec		
LAN/WAN protocols	HTTP, DHCP, SSL, SSH, XML		
Data logging specifications			
Data sampling rate	High frequency data sampling (less than 1 minute average)		
Local storage	Log data for 30 days based on 15-minute intervals (Days logged may be reduced by intervals shorter than a minutes		
Upgradeability	Field upgradable over the Internet or locally via USB memory stick		
Power supply			
AC power supply input	100 - 240 VAC		
DC power supply output	12 VDC, 1 A		
Environmental parameters			
Ambient temperature range	Logger only -40°F to 185°F (-40°C to 85°C); power supply 32°F -104°F (0°C-40°C)		
Environmental protection	IP20		
Relative humidity	< 85% Non-condensing		
Mechanical parameters (per unit)			
Dimensions (H x W x D)	133 mm x 132 mm x 31 mm (5,2" x 5.1" x 1,2")		
Weight	0.91 kg (2 lbs)		
Mounting system	Screws through flanges		
Warranty			
Standard warranty	Two years		
Accessories			
VSN-MGR-DIN	Din rail mount kit to mount logger on a din rai		
VSN800-12	Weather Station with sensors: ambient temperature, panel temperature, global irradiance		
VSN800-14	Weather Station with sensors: ambient temperature, panel temperature, global irradiance, plane of array irradiance, wind speed and direction		
Compliance			
Emissions	FCC Part 15 Class B, CISPR 22, EN 55022 conducted and radiated emission, EN55024		

Remark. Features not specifically listed in the present data sheet are not included in the product

Commercial and utility application with VSN700-05

VSN700 Data Logger model comparison

Type code	VSN700-01	VSN700-03	VSN700-05
Logging real-time power values	15-minute intervals only	1, 3, 5, 15 minute configurable intervals	1, 3, 5, 15 minute configurable intervals
Modbus/TCP server	No	No	Yes
Inverter control commands	No	No	Yes
Devices supported	5 x ABB single-phase inverters* ⁻	10 x all ABB string inverters	All ABB inverters
		1 x VSN800-XX Weather Station	Other ABB devices and third-party devices (Consult latest supported list)

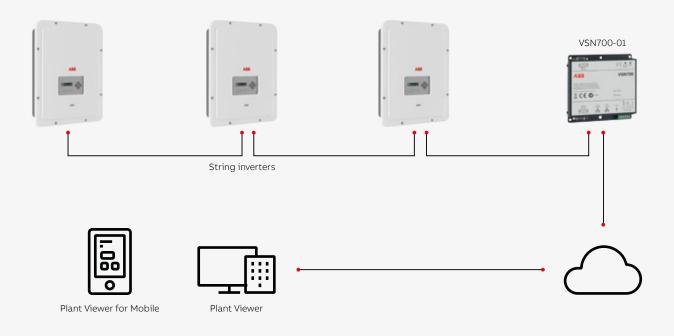

* Supports also TRIO-5.8/7.5/8.5-TL-OUTD

VSN700 Data Logger Accessories

VSN-MGR-DIN	Din rail kit to mount logger on a din rail	
VSN800-12	Weather station with sensors: ambient, panel, global irradiance	
VSN800-14	Weather station with sensors: ambient, panel, global irradiance, plane of array irradiance, wind speed and direction	

Residential application with VSN700-01
